

SRISTI Shastra

Innovator: Community Knowledge Workers	Address : National Innovation Foundation – India Satellite Complex, Nr. Mansi Cross Roads, Satellite, Ahmedabad -380 015, Gujarat, India.	Contact Details: +91-79-26732456, 26732095
Problem addressed: Aphids and white flies feed on the underside of leaves. They can reduce plant vigor and cause a number of plant disorders and act as hosts for viruses. They reproduce quickly and spread at a rapid rate. Whiteflies suck sap from the plant, resulting in a yellow mottling on the surface of the leaf, as well as leaf loss, wilting and stunting. Larvae of Heliothis are agricultural pests on crop species such as tobacco, cotton, soybean and pigeon pea.		
Product : SRISTI Shastra is a 100% natural and organic composition to control the pest problem in farming fields. All these compositions are suitably prepared from herbs and other natural ingredients. These herbal pest controllers effectively remove the aphids, white fly, heliothis and several other insects – harmful for the crops. These insect control compositions are offered in different packaging specifications.		
Key Competitive Advantage:	<ul style="list-style-type: none"> • Available at affordable price. • Easy to use. • No harmful effects on land. 	
Price:	Rs.250 per 500 ml	
How to Order:	Purchaser are requested to deposit the cheque of name of Sristi Innovations. Account Number- A/C 032010100568227 Name of Bank- Axix Bank IFC CODE- UTIB00000032 Branch Vastrapur Ahmedabad-15	
Time to deliver:	7 days
