

The National Innovation Foundation–India (NIF) recently conducted Scouting and Documentation (S&D) activities in the Ranchi and Lohardaga districts of Jharkhand.

On 05 May 2026, at Ranchi, students of the Ramakrishna Mission Vivekananda Educational and Research Institute (RKMVERI), a Deemed University, were sensitized to the importance of grassroots technological creativity and its role in strengthening the grassroots innovation ecosystem.

Earlier, on 04 May 2026, in Lohardaga district, interactions were held with farmers to scout and document their traditional knowledge, indigenous practices, and locally developed technological solutions.
