

National Innovation Foundation – India (NIF) conducted visits across several villages, including Khari, Dhalan, Mandi, Arai, Dalhori, Khanitar, and Magnarh as part of a Scouting and Documentation (S&D) Outreach Programme focused on grassroots innovations and outstanding traditional knowledge in Poonch district.

A village meeting was also organised in Kuniyian, engaging diverse community members. The meeting underscored the importance of grassroots innovations and community-driven solutions in advancing sustainable development.

During the outreach, several significant practices related to engineering, plant protection, veterinary care, and human health were documented, highlighting the richness of local knowledge systems and their potential for wider application.
