

Smart wrist band for elderly

P K Raghul
Class 10, Adarsh Vidya Kendra
Kanyakumari, Tamil Nadu

Raghul has developed a smart wrist band for the elderly where has integrated a fall alert, medicine reminder, pulse rate monitor, a SOS button, GPS based Alzheimer patient tracking system and some other functionalities helpful for the elderly.

He likes to read books and draw cartoons. He keeps a note of all the innovative ideas in a note book along with their sketches.

Raghul aims to become an innovator and commercialise innovative products that make the lives of people more comfortable.
