

SRISTI Krushak

Innovator: Community Knowledge Workers	Address : National Innovation Foundation – India Satellite Complex, Nr. Mansi Cross Roads, Satellite, Ahmedabad -380 015, Gujarat, India.	Contact Details: +91-79-26732456, 26732095
Problem addressed: The disease is a major threat to tomato production and losses in severely affected crops have been very high. The disease causes stunted growth of plants and yield is also minimal. As our product is purely made from herbal extracts, it does not leave any harmful side effects on the land also. For managing it, it is mandatory to spray insecticide frequently to minimize the disease by controlling the vector pest attack.		
Product : The product is highly effective against leaf curl disease. For managing it, it is mandatory to spray insecticide frequently to minimize the disease by controlling the vector pest attack. These herbal compositions are prepared using best quality raw materials, which meet or exceed the international quality standards for safety and effectiveness. To suit the different needs or preferences, these compositions are offered in various packing specifications that can be customized.
