

Intestinal Worms Control

Intestinal worms are very common in cattle and pet animals. These worms mostly include *Ascarislumbricoides*, *Trichuristrichiura*, hookworm, etc. All these worms develop worm burden, which sometimes causes fatalities. We offer a variety of herbal compositions, which are specially designed to control and destroy the intestinal worms in animals. These herbal compositions contribute to overall good health by controlling the growth of worms. These intestinal worm controller compositions are 100% natural and organic, which ensure safety and high effectiveness.
